

## SOFRAME and its new products

### SOFRAME, a flexible and innovative company

SOFRAME designs, manufactures and delivers transportation solutions – both vehicles and services – for **defence and security**.

SOFRAME is a French company with an international reputation as:

- a leading European exporters of armoured military wheeled vehicles
- one of the world's biggest manufacturers of anti-riot water cannon vehicles
- a leading designer and manufacturer of armoured cabs

SOFRAME is very flexible in its approach, offering a wide range of vehicles that are customised to the individual needs of each customer.

SOFRAME offers a wide range of vehicles and equipment, which can be found on the new website [www.soframe.com](http://www.soframe.com)

**Transport and recovery systems, Armoured command post and support vehicles,  
Combat vehicles, Light air-mobile vehicles, Anti-riot vehicles,  
Semi-trailer tank transporters, Logistics trailers**

At the Eurosatory 2016 trade fair, SOFRAME will present four new products, together with a new fleet management solution.

#### ARIVE, ARmoured Infantry VEhicle

The **ARIVE** is a major new product from **SOFRAME**, an armoured high-mobility 4x4 vehicle capable of carrying up to 12 people (10+2).

The **ARIVE** is now available in several versions including troop transport, command post and ambulance.

Each version can be customised for the client's individual needs, with internal design, weaponry and equipment set up for the type of mission. **ARIVE's** flexibility and capability embody the **SOFRAME** culture and expertise.

**ARIVE** is 7.3 m long and 3.3 m high, has a GVM of 14.5 tons, and has a maximum speed of 100km/h.

#### VID 12 000S, Anti-Riot Vehicle

**SOFRAME's VID** range of vehicles are specially designed for anti-riot missions, avoiding the provocative look of military equipment.

The **VID 12000S** is a high-mobility 6x6 vehicle.

The **VID 12000S** is 4m high, 9,8m long, and has a GVM of 32 tons. It can reach 90 km/h.

It is equipped with cameras, and has two water cannons with a range of 60 meters. Its tanks can hold 12,000 liters of water, 300 liters of CSL gas, 250 liters of foam and 50 liters of dye in order to disperse an aggressive crowd without the need to resort to force or firearms.

## SOFRAME's latest innovations

### VENPIR and OUTFIELDER, Special Forces Vehicles type

SOFRAME's two Special Forces 4x4 vehicles, **VENPIR** and **OUTFIELDER** are highly mobile, enabling crews to move fast within the intervention zone.

The vehicles can be fitted with the latest communication equipment, and with a rotary support or fire column for 12.7mm and 7.62mm calibre weapons.

The **VENPIR** is 6.2m long and 2.4m high and has a GVM of 11.5 tons. It can carry a 5 person crew, and reach 110km/h.

The **OUTFIELDER** is 5.4 m long and 2.2m high, and has a GVM of 5.5 tons. It can carry a 3 person crew and reach 120km/h.

### The SOFRAME Fleet Management Solution

SOFRAME offers a complete Fleet Management Solution for ground forces.

The Fleet Management Solution is a turnkey service that provides:

- Real-time monitoring of vehicle fleet performances
- Vehicles availability for your specific needs
- Reduced operating costs
- Optimised maintenance
- Just-in-time supply chain management
- Anticipation of potential problems

The **SOFRAME** Fleet Management Solution helps ground forces to continually improve operational and cost efficiency through the systematisation of maintenance and logistics.
