Technical characteristics

The **CLV** (Command and Liaison Vehicle) is a **protected, all-terrain** 4x4 pick-up truck, featuring great **versatility**.

It has a rear platform with an effective volume of 3 m³ where additional mission equipment can be installed.

It has a STANAG-certified **armoured cab** ensuring the **safety and comfort** of a 4-person crew.

It has a GVWR of 12 tons and permanent all-wheel drive providing excellent stability and agility.

Its **modular** design means it can be fitted with different equipment configurations whilst ensuring **optimum ergonomics** during use.

Its 6-cylinder engine delivers torque of 970 Nm and generates 210 kW (285 hp) for a steady speed of 110 km/h.

It has independent suspension and can also be fitted with rear axle steering to **optimise road handling and facilitate low-speed manoeuvrability** in entangled or unstructured spaces.

 Protection: level 1 to 3

 Engine: 210 kW (285 hp)
