Performance, versatility, robustness, durability and transportability are the key qualities of our trailers.

The **RP 2.5** multi-purpose trailer embodies these characteristics.

These classic trailers are totally reliable and have been used by the French army and foreign forces for decades. They have the advantage that they can be towed by most tactical vehicles.

The **RP 2.5** can be used to transport specific packages by road and track.

Based on the same chassis, the **RP 2.5** is available in versions for covered or uncovered cargo, generators, motor pump units or tanks.

Transportable by air, sea or rail, the RP 2.5 is an invaluable flexible and multi-purpose auxiliary for first-level logistics for front-line units.

Payload: 1640 kg

Pneumatic braking system compliant with EC standards

NATO-compliant 24 V signalling and electrical circuit

2 landing legs, jockey wheel

GVWR: 2.5 t
